NİHAT SAFARLİ

SOFTWARE DEVELOPER

ABOUT ME

- I'm Nihat Safarli. Since January 2020, I started learning software with online and offline courses. Firstly, I learned them by working on HTML, CSS, JavaScript and Jquery, then on C# software language and .NET framework. At the same time, I have knowledge of ASP.NET, ASP.NET MVC, Entity Framework, ADO.NET Ms SqlServer. Then, I started to develop myself further in the FrontEnd part and by learning Html Css Js Jquery languages more deeply, I also learned Css Technologies Bootstrap, Flexbox, SASS, TailwindCss, Material UI. After that, I learned the React Js library, which is one of the most popular libraries of Javascript. Using these technologies I learned also (Swiper Js, Email Js), I made many projects and shared them on my Github account, as well as published them on the netlify.app site.
